OPTIMAL ARTERIAL AND CARDIOVASCULAR HEALTH

CircuZyme™ contains citrus-sourced diosmin, a type of plant chemical used to **target blood vessel support**. This superior formula also contains increased amounts of amino acids. These amino acids make up the building blocks of proteins, making them **critical to whole-body health**. This blend of diosmin and amino acids synergistically combine to **promote healthy microcirculation of blood to peripheral tissues**.

Cranberries are a powerful ingredient in CircuZyme™

Nattokinase, the active enzyme in natto, may possess a variety of favorable cardiovascular effects as well, including fibrinolytic activity and lipid-lowering effects. When these compounds are blended together, their critical synergists, co-factors, and transports combine to provide extraordinary support to circulatory function.

EXPERIENCE PREMIER CIRCULATORY SUPPORT

Premier Research Labs sources ingredients found in our products from the finest qualified suppliers from all over the world. Our rigorous testing procedures monitor the production of our products from raw materials to final product production to ensure that your clients will receive maximum benefit, without the risk of undesirable and questionable fillers and binders.

We are committed to producing products of uncompromising quality. In addition, our products are created without added excipients with pure, plant-based capsules. Our products have no added magnesium stearate, an undesirable excipient (commonly used in nutritional products) that research shows can suppress the immune system.

We invite you to experience the highest quality circulation formula, which promotes optimal whole-body circulatory support as well as superior nerve and arterial support. Our goal is to help you achieve superior nutritional outcomes with your clients on their journey to wellness ... with scientific nutrition at its best
